It is said that upon receiving their intimation that they would not stand in his congressional path, our representative became calmly resigned to the substitution of their friend Kauffman for his friend Wiley in the collector's office; and won't even take up arms with the Wolfe people to revenge himself for the Re-former and his organ-who supported inheritance, subdivision, transfer and leasslights he he has received in the House at the hands of the Cameron speaker.

Mr. Smith undoubtedly is a philosopher who does the best he can in untoward 5,000 to whom they can soon be swelled circumstances and don't kick against |-will make a declaration for an Indethe pricks. He can't be called an pendent, real reform movement in this Independent of the Wolfe style. They get rid of the troublesome Wickersham by sending him to Denmark. The Independents' committee, which is negotiating with them, can learn the game from their exhibitions of it. It is an old game. They stoop to conquer, but never of their calculations, which aim solely at the capture and decapitation of the lambs, who are to be deceived into pulling down the fence between them.

Re-Form and Reform.

The Reformer's lot is not a happy one. consistent, if not successful, in boldly them a lesson occasionally by sallying out, joining with the Democrats and accomplishing some real reform. He was always gladly welcomed back to the party household, and generally feasted with fatted calf. Four years ago he conceived the notion of abandoning principle "fighting the devil with fire." He has commended for breaking through the only got his fingers badly burned for his reserve of her sorrow to aid in the expopa 111g. He elected and re-elected Senator Warfel and the corporation and Cameron influences at Harrisburg always knew where to lay their hands on him "when he was needed." No class of legislators are more serviceable to them than those who wear the livery of reform and are always to be had " if needed." The Re-former invented Senator Mylin and he has been "returned to plague the inventor." The Re-former has had serious trouble preventing Representative Landis's vaulting ambition from overleaping itself and tumbling him into the entanglement of the Lochiel web. The Re-former discovered Roebuck and it wasn't long until he found that he had caught another Tartar.

He saw "the Cameron ring disrupted " when, with desperate exercise of the most corrupt appliances, he elected McMellen, Edgerly, Groff, Coble & Co. But the illegal fee business kept on flourishing, the county funds were only handed over to the other firm of cattle drovers, and the administration of the county commissioners closed with a perfect "carnival " of rapacious raids on the county Smoky City. All of the contestants claim treasury, for which there has never been to have been fairly chosen and the face of any shadow of a defense made, except the returns shows that there was indeed the recommendation of the two judges some unusually close nicking in the vote, -appended to the exorbitant and illegal bills—that the grabbers should be " very liberally compensated," and the extrajudicial suggestion of Judge Livingston to Ike Bushong that he "could make appearance at Easton under the name and no mistake" in paying Urban's bill, title of the Northampton Democrat, publishfor which the county was no more liable ed by J. That is quite out Mrs. Garfield having certified that Dr. Bliss was not called upon by her or her husband to attend him. THERE is still hope for Major Griest's pension. A battle-scarred veteran up in Vermont has just received \$1,800 under the arrears of pensions act "for injuries received by falling off an army wagon when he was so grossly intoxicated as to be unable to keep his seat." It seems to us that this was a less deserving case than that of our esteemed local contemporary, who, while gallantly serving his country as a sutler, fell from a cracker wagon mule and unfitted one of his wrists for decent editorial work.

REPUBLICAN PRIMARIES.

THE GREAT BIG FIGHT OF TO-DAY. All Interest Contered in the Senatoria Contest-Sensenig as a Connec-

ting Link. From 3 p. m., to 7 p. m., to-day will be held the Republican primary elections. The counting in and counting out will continue until Monday at 11 a. m., when the return judges are summoned to meet at Excelsior hall in this city, and, as some of the contests are likely to be close, the fun may only fairly begin when the return judges assemble. The chief interest centres in the fight in the upper district for senator, where there is a straight Cameron and anti-Cameron issue and a fair fight between the same two candidates as ran four years ago, when the vote stood as follows:

57 Brecknock..... Ephrata Hempfield, West..... Leacock, Upper..... Mount Joy Borough..... Mount Joy, Upper..... Mount Joy, Lower.... Penn

In all the Mount Joy districts he will do better than in 1878 : In Sporting Hill, Union Square, Carnarvon and Upper Leacock, nearly solid for Kauffman four years ago, because the politicians who controlled them were for him. Stehman will gain largely in Ephrata, the Cocalicos, Clay and Warwick, where Kauffman then had the advantage, the united support of Mentzer, Sensenig and Eberly will now transfer that advantage to Stehman. In Manheim township Hunsecker's candidacy for Congress will help Stehman; and in the three Earls, where even Sheriff High's influence is expected to be not used greatly to Stehman's disadvantage, much of Kauff-man's large majority of 1878 will be wiped and resources of the Cameron faction antagonizing him, Mr. Kauffman will win a brilliant and unexpected victory if he pulls through to-day.

The murderers were the last persons hanged in Lancaster county, and this item relates to the husband of one of the victims : "Michael Ream, an aged citizen of Hellam township, is lying seriously ill and no hopes for his recovery are entertained. About twenty years ago Mrs. Ream paid a visit to her daughter, then living in Lancaster county, and in the absence of her sonin-law both she and her daughter were murdered. Suspicion at once fell on two colored men, who were arrested, and in due course of time convicted and executed for the crime. THE COLERAIN MURDER

NEWS FROM MAW THE HOMICIDS. weeks Age Carrying With Him News-paper Accounts of the Tragedy.

It will be remembered that when James Shaw, who murdered his wife in Colerain township early in March, fled red-handed from the scene of his crime, the INTELLI-GENCER surmised that he had taken the direction of Baltimore, thence either to Virginia or Ireland. It afterwards traced him to Long's mill, in Drumore township, where he got supper at E. M. Stauffer's on the night of the murder. This is on the route from his late home to Baltimore. Since then nothing reliable has been heard of his movements. His family, though horrified at his crime and willing to have him brought to judgment, were naturally not the persons to become the pursuers of the fugitive, and he had such a start of the \$500 reward offered for him by the commissioners that not much detective talent has been exercised in the search for him. To-day news comes from Baltimore which indicates that death and judgment have overtaken him. The following dispatch was received by the INTELLIGENCER early this morning :

BALTIMORE, April 29. EDITORS INTELLIGENCER: An unknown man died in the hospital on April 13. On his person were found clippings from the Lancaster papers about the murder by Jas. Shaw, at Bartville, Pa., of his wife, dated 4th of March, no year given. The police believe the unknown to have been Shaw. Do you know anything about it? Was Shaw ever captured? Please an-THE DAY.

More Testimony Pointing to His Lientity. Baltimore Day of this Morning.

Certain facts which appear to throw light upon a murder that occurred in Pennsylvania recently were yesterday un-earthed by Dr. E. Van Note, of the City hospital. On the 13th of last March a middle aged man was admitted to the hospital suffering from a wound in the calt of the right leg, which he stated to Dr. J. Frazer Thomas he had himself accidentally inflicted with a broadax while hewing a table. Eryispelas followed, and he was treated for this. In a few weeks the wound healed and the erysipelas gave promise of being ultimately cured, but the knee-cap became inflamed, puration set in and on the of the present month the man died of suppurative exhaustion. On his admission to the hospital he gave his name as John Campbell and said he was 45 years old, a widower, and a farmer and carpenter living in Baltimore county. During his sickness he was not asked many questions, and it was frequently noticed by the persons in charge of him that he was careful to conceal his panta-loons under his pillow, but no significance was attached to this, it being support that he wished to make his pillow higher and more comfortable. When he died, however, these pantaloous were taken possession of by the hospital authorities and their contents examined. A heavy billy, several pistol cartridges and a constitution and by-laws of Lodge 100, I. O. O. F., of Christiana, Pa., were what the pants con tained. Dr. Van Note, resident physician, to whom the articles were handed, neglected to make a minute examination of them, attaching no special importance to them, and laid them away in a cupboard. The man was buried by the city, as he

About that time Dr. Van Note was attacked with a slight case of smallpox and went to quarantine. Having recovered he returned to the hospital yesterday, when he was informed by Dr. Thomas that during his absence he (Thomas) had casually examined the book left by Campbell, and found that it contained newspaper clippirgs and other things which seemed to identify the deceased as an escaped murderer from Pennsylvania. Dr. Van Note made a careful examination of the book, which was a small printed publi cation, and between the leaves he discovered two short newspaper clippings, which by the advertisements on the back seemed to place them as published in Lancaster, Pa. Both were correspond ence from Christiana, Pa. The larger one was dated March 7, but what year was not stated in the dispatch, nor could it be discovered anywhere in the clipping. The contents were substantially as follows: [Here appears a brief account of the Shaw homicide substantially as has heretofore been published in the INTELLIGEN-

had no relatives here.

The smaller clipping was also a dispatch from Christiana confirming the facts as told in the larger one in a few words and without additional particulars, Looking further in the book, Dr. Van Note found a note given by James Shaw to another party, payable at the Oxford banking company, Oxford, Pa. On the back of the paper was: "Mr. Eckman—Dear Sir : Please pay to the bearer, Jas. Shaw, \$3. I will be responsible for its return. Yours truly, John Simpson." There was also a small slip of paper containing a receipt by a tax collector for \$2.50 from Jas. Shaw for state and county taxes. The last

The fly-leaf of the book containing all these articles bore the name "James Shaw." and the words "I belong to this order in case of accidents," Dr. Van Note very naturally thought he had alighted on a page in some dreadful tragedy, and felt no doubts but that the man who died on the 13th of April at the hospital, was none other than James Shaw, the murderer of his wife. He therefore took the book, papers, &c., to Police Marshal Gray, who stated last night that he would to-day communicate with the authorities in Pennsylvania and clear up the mystery surroundcase. The marshal said that he had received no request from any one in Pennsylvania about the as though recently grown. He was very quiet and retiring in his disposition, and doubt but that the man was Shaw.

Samuel High, a thirteen year old boy, residing in Earl township, whose parents are both dead, was brought before the court in order to have him sent to the house of refuge. It was shown that he is very bad and will not stay with people to whom he used to live. His grandmother is unable to do anything with him. A number of incidents were related about him. On one occasion he was sent for medicine for a sick person, and he did not return for two days. At another time he went to a neighbor's house and when they retired he crawled into the bake oven and slept instead of going home. He was ordered to be taken to Philadelphia.

A FALSE ALARM. Excitement on Kast King Street.

Last evening about 10 o'clock there was great excitement on East King street near the court house. At that hour was heard a loud report and a crash of glass. Inquiry was at once set on foot to ascertain the cause. A cellar window in Fah nestock's dry goods house was found to be broken out; a plate glass window of Sprecher's seed store was seen to be broken, and other glass in the vicinity was noticed to be shattered. A rumor was at once started that there were burglars about and that a safe had been blown opon. A great crowd soon assembled. Messengers were dispatched to call Messrs. Fahnestock, Sprecher and others, and they were soon on hand. A search of the premises was made and everything was found to be all right, except that the sash of a cellar window in Fahnestock's store had broken loose from its rusty hinges and fallen to the cellar, shattering the glass and making the report which had caused the alarm. The breaks in Sprecher's windows and others were old

This charming little wild flower is fast disappearing in consequence of rough handling received from those who gather it. Persons generally go in companies and in their excitement tear it up regardless of their disturbance of its roots, crowd it in baskets, to find on distributing it on their return, that about half has to be cast aside, and the delicate flowers have been blackened by contact with the rough, firm leaves. There is a better way. In every locality where the little beauty grows there will be found quantities of moss. Take with you a pair of scissors and trays instead of baskets. Put a layer of moss on each tray. Cut the perfect flower stem without molesting the roots and insert them at once in the moss.

The plant will grow and spread all the more for the trimming. Gathered in this manner it will carry any distance without injury; and keeping the moss damp is all it requires to brighten your home for

As we go to press the primary elections are progressing quietly. The new law seems to have some effect, as there is very little drunkenness. There was very little trouble in selecting officers in any of the wards except the Fourth, J. W. Johnson's ward, where that gentleman was beaten by the Examiner clique, who elected Robert Evans, judge, over Amos Groff, Johnson's eandidate.

A reunion of the survivors of Co. K. 122d regiment, will be held at Eugene Bauer's Golden Horse hotel on next Tuesday evening. George F. Sprenger will read a history of the company taken from a diary which he kept while orderly sergeant. Most of the members of the company reside in this city and county, and the reunion will be well attended.

Additional improvements and enterprise call for renewed notice. Young blood and a keen sense of the public wants in the matter of trade account for the accumulating evidence of material prosperity which has marked the career of the firm. Located in a portion of the Coyle building, opposite the court-house, on East King street, they have long felt the need of enlarged accommodations, and this spring they secured possession of the entire building. They now occupy more rooms than any other business house in the city.
